Dear Justine,

I would like to send this letter in support of your Gold Award Project with the Girls Scouts of America. Learning about how you aim to help middle school girls from underserved communities with your project "Girls Guide to Careers" put a smile on my face. As a proud Gold Award recipient, myself, and as the COO of COMPEL CEOs, I love the idea of this project.

With running a business focused on executive growth and development, it is important to consider the future workforce. Even more so, it is an obligation as a female business owner to support young girls in their quest to forge a successful career. Working with many female CEOs and business owners is a lesson to all young girls to dream big – we should all aspire to this level of success.

I wish you all the luck with this project!

Sincerely,

Jamie Ramerini
COO, COMPEL CEOs
