Dear Justine,

When I learned about your Gold Award Project, I was so impressed and very excited to lend my support to the Girls Guide to Careers. Providing a resource to allow young women from all walks of life to explore different career paths is both timely and vital to expose girls to options that many never knew existed, let alone were available to them.

Being a woman in business has always presented unique challenges, especially in the traditionally male-dominated practice of law, but with challenge comes reward, both personal and professional. Your mission to expose other girls to the many exciting and challenging vocations that exist is commendable, and in line with my efforts (as a former Girl Scout myself) to support women in the legal profession and other related fields. Plus, your website is fantastic!

Congratulations on all of your accomplishments to reach this point in your Girl Scout path, and I wish you the best of luck with this terrific project and all of your future endeavors.

Best wishes,

FORCHELLI DEEGAN TERRAN LLP
